Spears Manufacturing Modified Series
“FYTRON Software 60 presented by LiUNA”

PARKING: The current plan is for the Spears Manufacturing Modified Series teams to be parked in the first 14 spots in the pit area behind the main grandstand – the west end at the far end from the pit entrance gate.

TIRES: Reminder - Hoosier 970’s for the September 14th Spears Manufacturing Modified Series event will be sold at the track by Irwindale Speedway. Once your race set of tires are purchased, bring them to the SRL Series Trailer to be logged and marked for the weekend.

FRIDAY PRACTICE: There will be Friday practice, which will be managed by Irwindale Speedway. There will not be SRL tech on Friday. Transponders will be available at the SRL Trailer.

SATURDAY TECH: Before practice on Saturday, each Spears Manufacturing Modified Series will be required to roll through tech before practice. There will also be Pre-Qualifying Tech, based on the order of Saturday practice times.
